September 1, 2021

Dear Parents and Families,

Following guidance from the CDC, Delaware Dept. of Public Health and the Office for Child Care Licensing, Brandywine Valley Christian Preschool will implement the following procedures to help mitigate the spread of any illness in our environment for the upcoming school year. As with all schedules for this year, this addendum is subject to change at any time and will be communicated through the proper channels. The most important safeguard we can take to prevent the spread of illness is to keep students home when they (or anyone in their household) are sick. This helps to protect our whole school community.

Please carefully read these procedures for the upcoming school year. While we recognize that school will look different from years past, we are grateful for the opportunity to be with our students and learn together in person. We will ask that all families acknowledge that you have read and understand these changes to our handbook and policies moving forward.

Blessings,

Kerri Wozinski, BVCP Director

Arrival/Drop-Off Procedures:

- If a staff member is sick, they are advised to stay home.
- If a child is sick, they are advised to stay home.
- Hand sanitizer is located inside the main entrance. Parents can walk their child in on their 1st day of school but will need to use the carline for both drop off and pick up after that time. We will ensure that your child arrives at their classroom safely. We will re-evaluate this practice in October after the Department of Education's 120-day period from the August 16th mandate.

Health & Wellness:

- Anyone with a fever of 99.5 or higher, is to stay home. They may return when they are 24-hours fever free without the aid of medication. The normal sick policy from OCCL will be followed.
 - HOWEVER, if there is a fever of 99.5 or higher and the child/staff member is otherwise symptomatic and considered at risk for Covid-19 exposure, they are to remain home for a total of 7 days after symptoms have resolved (defined as resolution of fever without the use of fever-reducing medication **and** improvement in respiratory symptoms (i.e. shortness of breath); **and** at least 10 days have passed since symptoms first appeared.
- If a staff member or child is awaiting COVID-19 test results for any reason (due to symptoms, precautionary for travel, etc), they are to remain home until test results are determined. If negative, they can return to school immediately. This will lessen the time a classroom is forced to shut-down if a child or teacher asymptotically tests positive.
- Unvaccinated students or staff who test positive for COVID-19 must quarantine at home. If you were asymptomatic, or symptoms develop while quarantining after the positive result, you must remain quarantined for 10 days after the first day of symptoms and be symptom-free for at least 24-hours without the use of medication before returning.
- Any unvaccinated individuals who have been exposed to a positive case of COVID-19 must quarantine and watch for symptoms. If you do not develop symptoms, you can test between 5-7 days after exposure. If you receive a negative result and still do not have any symptoms, you may return after the 7th day since exposure. If you do not get tested and have developed no symptoms, you must continue to quarantine for a full 10 days before returning.
 - Fully vaccinated individuals do not need to quarantine. However, you must wear a mask and self-monitor for symptoms. It is recommended that you be tested 3-5 days after exposure to confirm you are negative.
- BVCP is required to report any positive cases of COVID-19 to DPH. Additionally, BVCP will also report cases to our OCCL licensing specialist. Both reports are to be made within 24 hours of learning of a positive case.
- Any student needing to be sent home due to illness must be picked up ASAP after our phone call notifying their parent/guardian. We will have a designated area where the sick child is located to separate them from other students/staff. A staff member will remain with the child until he/she is picked up.

Hygiene/Sanitation:

- ALL staff and school-aged children (kindergarten and above) *must* wear cloth face coverings while inside the school. Staff and/or kindergarten students may remove their mask while outdoors. All children 2 years of age through PreK are *strongly encouraged* to wear face coverings if they can do so reliably in compliance with CDC guidance. Children under two years of age should not wear a face covering due to suffocation risk.
- Children and staff will be encouraged to wash hands and/or sanitize frequently throughout the day.
- Staff members are to wash their hands upon arrival, before and after snack, before and after bathroom/diapering, after sneezing, coughing, blowing their nose and any other time deemed necessary.

- We will provide face coverings to anyone who does not have one before they can enter. Additionally, we will deny entry to anyone kindergarten and above who will not wear a face covering in compliance with DPH guidance, the State of Emergency and OCCL regulations.
- Children will be reminded throughout the day to refrain from touching their faces and to cough/sneeze into their elbows.
- We will adhere to the following additional cleaning and sanitation practices:
 - All hard surfaces will be sanitized at least twice a day and as needed.
 - ALL frequently touched surfaces (doorknobs, light switches, handrails, faucets, etc) will be sanitized throughout the day.
 - ALL toys will be cleaned at the end of each school day.
 - Toys will be immediately separated for sanitizing after being placed in a child's mouth.
- Parents who choose to send in birthday treats should send in peanut & tree nut free items that are individually wrapped. The treats MUST be labeled from a peanut & tree nut free facility or they will not be served.
- The water fountain in our hallway will be used to fill pitchers or water bottles only. The drinking fountain portion remains closed. Children will be given water (or other liquids such as milk, etc) in individual cups for drinking in their classrooms.

Please print this page, sign & return as confirmation that you received & agree to the established COVID policies...
