

Romans 11:11-24 New International reader's Version (NIRV)

¹¹Again, here is what I ask. The Israelites didn't trip and fall once and for all time, did they? Not at all! Because Israel sinned, the Gentiles can be saved. That will make Israel jealous of them. ¹²Israel's sin brought riches to the world. Their loss brings riches to the Gentiles. So then what greater riches will come when all Israel turns to God!

¹³I am talking to you who are not Jews. I am the apostle to the Gentiles. So I take pride in the work I do for God and others.

¹⁴I hope somehow to stir up my own people to want what you have. Perhaps I can save some of them. ¹⁵When they were not accepted, it became possible for the whole world to be brought back to God. So what will happen when they are accepted? It will be like life from the dead. ¹⁶The first handful of dough that is offered is holy. This makes all of the dough holy. If the root is holy, so are the branches.

¹⁷Some of the natural branches have been broken off. You are a wild olive branch. But you have been joined to the tree with the other branches. Now you enjoy the life-giving sap of the olive tree root. ¹⁸So don't think you are better than the other branches. Remember, you don't give life to the root. The root gives life to you. ¹⁹You will say, "Some branches were broken off so that I could be joined to the tree." ²⁰That's true. But they were broken off because they didn't believe. You stand only because you do believe. So don't be proud, but tremble. ²¹God didn't spare the natural branches. He won't spare you either.

²²Think about how kind God is! Also think about how firm he is! He was hard on those who stopped following him. But he is kind to you. So you must continue to live in his kindness. If you don't, you also will be cut off. ²³If the people of Israel do not continue in their unbelief, they will again be joined to the tree. God is able to join them to the tree again. ²⁴After all, weren't you cut from a wild olive tree? Weren't you joined to an olive tree that was taken care of? And wasn't that the opposite of how things should be done? How much more easily will the natural branches be joined to their own olive tree!
